Top Employee Benefits Consultant: Identifying the Best

The employee benefits consultant continues to play an increasingly critical role in human resources, risk management and compliance. The consultant's role is no longer solely defined by the parameters of a contract and can't be measured by a single transaction. An organization's responses to healthcare cost containment and the fluctuating values of defined contribution assets are just a couple of areas to which benefits consultants and brokers contribute expertise and perspective.

The *Risk & Insurance[®]* and *Human Resource Executive[®]* Top Employee Benefits Consultant Award identifies outstanding benefits brokers and consultants: those individuals who have done extraordinary work for their clients during the past year. We look at client service, creativity and innovation in problem-solving, cost-savings and quality improvements, along with insurance and benefits expertise. We will profile what each Top Employee Benefits Consultant has accomplished during the past year in the June issue of *Risk & Insurance[®]* and the June 2 issue of *Human Resource Executive[®]*.
